

163 Series

Wire Terminal Closures

Rugged Plastic Housing

Easy Installation

One or Two Pair with
Optional Ground Stud

163-01

163 Series Wire Terminal Enclosures are used to connect drop wire and bridle wire for aerial wire drops.

KEY PRODUCT BENEFITS

- ▶ The 163 Series Wire Terminal Enclosure is molded of durable, weather-resistant thermoplastic that is made to resist cracking, crazing, and discoloration
- ▶ Cover is designed to fit securely to the base to provide maximum protection against environmental conditions and the intrusion of any foreign matter
- ▶ For added security, the cover can be sealed in the field with a tie wrap or similar device
- ▶ The base includes a flexible grommet to seal the wiring exit area, allowing room for drop, ground, and station wiring
- ▶ #10 threaded studs provide convenient termination points

INDUSTRY STANDARDS

- ▶ Listed to UL 1863
