

68M-2-2T

Dual-Line Sealed Wire Terminal with Two Stubs

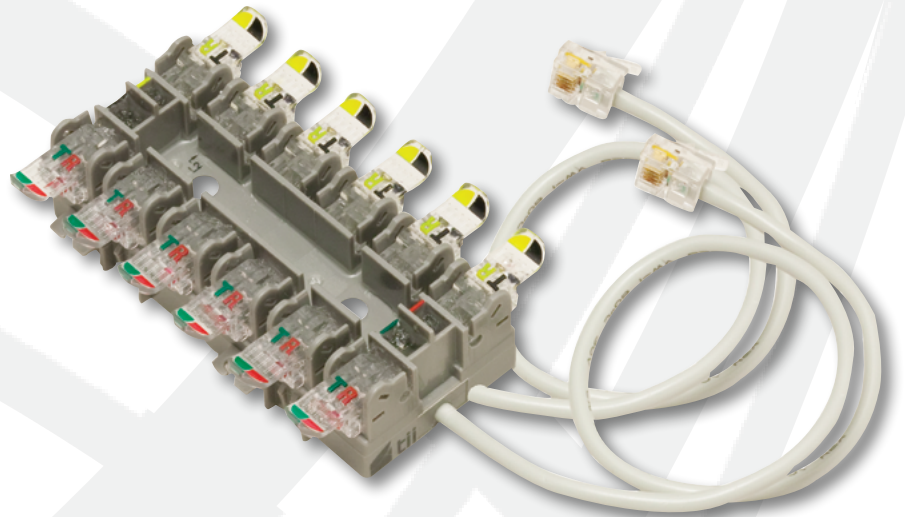

Equipped with
Integral Sealed Test Points

Utilizes Tii's Gel
Sealed Tool-Less
IDC Rocker Design

Mounts Easily to a
Suitable Flat Surface

CAT-6 Compliant

Listed to UL 1863

The 68M-2-2T Sealed Wire Terminal is designed for applications requiring more than one parallel connection (extension) to a dual pair service.

KEY PRODUCT BENEFITS

- ▶ Incorporates integral sealed test points – no additional loose test clips required
- ▶ Accommodates multiple extension connections for two line digital voice (or POTS) signals
- ▶ Terminations are made to gel sealed insulation displacement contacts (IDC) by means of convenient tool-less rocker assemblies. Wire stripping is not required.
- ▶ Compact, low profile design fits into applications where space is limited
- ▶ The 68M-2-2T may be mounted via screws to a suitable flat surface
- ▶ Accepts 26 through 22 gauge solid conductor wire sizes

INDUSTRY STANDARDS

- ▶ Meets UL 1863
