The 68M-2S-4 is designed for applications requiring more than one parallel connection for two pair service, in addition to providing connectivity to a Home Security System.

KEY PRODUCT BENEFITS

- ▶ Provides interface connection points for security systems. Each connection is identified for proper wiring
- ▶ Incorporates integral sealed test points – no additional loose test clips required
- ▶ Accommodates multiple extension connections for two line digital voice (or POTS) signals
- ▶ Terminations are made to gel-sealed insulation displacement connectors (IDC) by means of convenient tool-less rocker assemblies. Wire stripping is not required.
- ▶ Equipped with side wire looms for easy wire management
- ▶ Compact, low profile design fits into applications where space is limited
- ▶ Accepts 26 through 22 gauge solid conductor wire sizes
- ▶ Universally mounts to a suitable flat surface or within a tii indoor/outdoor wire terminal housing

INDUSTRY STANDARDS

- ▶ Listed to cUL and UL 1863
