Fiber Optic ONT Connection Point

The CCP7 serves as a single fiber connection/demarcation point and is used as the FTTH ONT access point. The unit is directly wall mountable, or may be mounted onto a single gang wiring box.

This enclosure provides a secure location for slack storage and fiber connections. An aesthetically pleasing, low profile cover easily snaps over the base. An optional snap on ONT mounting plate is also available to simplify ONT installations. The integrated SC or LC adapter utilizes an internal safety shutter to prevent accidental light exposure, dust contamination, and ferrule damage.

KEY PRODUCT BENEFITS

- Fiber demarcation/ONT access point
- Gang box or wall mountable
- Optionally enables ONT mounting
- Supports field termination, fusion (2x) or mechanical splice using Fibrlok™ Model 2529
- Shuttered SC-APC or LC-UPC adapter prevents contamination
- Fiber management and slack storage
- Multiple cable entry options: rear, bottom, sides
- Accommodates up to 3mm fiber
- Greenfield and Brownfield
- Tii FPS Series Fiber Pathway compatible
- Low profile, aesthetically pleasing

INDUSTRY STANDARDS

- cUL Listed to 1863
- TIA/EIA 604-3-A
- IEC 61754-4
CCP7 Series

SPECIFICATIONS

Interface  
Shuttered SC-APC or LC-UPC Adapter

Splice Capacity  
One: Fusion or Fibrlok™

Material  
Flame retardant thermoplastic, white
