FDH2 Series

Fiber Distribution Hub

72-144 Port Fiber Distribution Hub for Indoor and Outdoor Demarcation Points and MDU Distribution

Flexible, Multi-Application
Available with Adapters, Splice Trays and Pigtails
Up to 14 Splitter Module Capacity
Multiple Cable Entry Points
Removable/Lockable Door

The FDH2 Series is a wall mount fiber distribution hub designed to support patching, splicing and optical splitting in one unit. The enclosure has 13 adapter panel positions allowing for a wide variety of patching and splitting combinations. The central inner door separates the installed customer drops and feeder cable to allow easy technician access for ongoing customer maintenance of service utilizing the PON splitter parking lot.

KEY PRODUCT BENEFITS

- Accomodates 72-144 fiber ports for use in indoor and outdoor demarcation points and MDU distribution applications
- Available with adapters, splice trays and pigtails
- Door is removable for easy handling and maintenance
- Multiple cable entry points for quick termination
- Up to 14 splitter module capacity
