MDU

PON

shown with components of a typical installation

The FDH1 Series is a wall mount fiber distribution hub designed to support patching, splicing and optical splitting in one unit. The enclosure has 9 adapter panel positions allowing for a wide variety of patching and splitting combinations. Two compartments separate the network terminations from the distribution terminations and a single outer door.

KEY PRODUCT BENEFITS

- ▶ Accommodates 12-48 fiber ports for use in indoor and outdoor demarcation points and MDU distribution applications
- ▶ Available with adapters, splice trays and pigtails
- ▶ Door is removable for easy handling and maintenance
- ▶ Multiple cable entry points for quick termination
- ▶ Up to 4 splitter module capacity

INDUSTRY STANDARDS

- ▶ cUL Listed to 1863
